

Advantage Rail™ / Portable Options

A floor mounted pivoting and locking horizontal rail. Excellent where ceiling restrictions prevent a floor to ceiling pole. Perfect beside a toilet, bath, bed, or chair.

Features and Benefits

▪ **Simple.**

A gentle lift unlocks the rail to start it moving. Keep the rail up to move freely. Let the rail down to lock. Provides 8 locking positions. Height adjustable.

▪ **Safe, Effective Support.**

Push or pull on the rail to assist with sitting, standing and moving. To help prevent a forward fall, the rail will lock if released.

▪ **Reduce Caregiver Strain.**

Maximize the use of available strength while a caregiver supervises. Promotes safe and independent movement.

▪ **Portable Model (sold separately).**

Rail quickly secures and releases from a low profile, floor mounted plate. Install additional floor plates to use rail in multiple locations.

Portable Option
